DETAILED ACTION

Information Disclosure Statement

1. The contents in category of Name, Class, Subclass and Filing Date are incorrect, a new 1449-From with proper contents is requested <u>for the second time</u>.

Election/Restrictions

2. Due the restriction requirement, currently, only the polymerization process claims, claims 1-8 and 17, are under examination.

Claim Objections

3. The status of the pending claims, claims 9-16, are not properly indicated. The status of claims 9-16 should be identified as "Withdrawn" rather "Original".

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 3 and 17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

First of all, in claim 3, the newly amended limitation of "the block copolymer(s) are based on one or non polar monomers" does not make a logical sense. Secondly,

Application/Control Number: 10/667,980 Page 3

Art Unit: 1713

neither applicants have identified nor the examiner is able to find the support for the newly added limitation of claim 3 and the content of the newly added claim 18.

Double Patenting

6. Claims 1, 2, 4 and 8 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8, 10-12, 15-18, 21-23, 25, and 26 of copending Application No. 10/667,711. Although the conflicting claims are not identical, they are not patentably distinct from each other because the scopes of the processes for the preparation of homopolymers and copolymers of both sets of claims are partially overlapping with each other.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

7. Applicant's Remarks filed November 8, 2005 have been fully considered. The rejection under 35 U.S.C. 112, 2nd paragraph is withdrawn in view applicants' amendment. In the event of the above rejection under 35 U.S.C. 112, first paragraph of the instant Office action being overcome by applicants, applicants are requested to cancel the withdrawn claims 9-16, and the examiner will withdraw the double patent rejection of the record to put the instant application in the condition for allowance.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Application/Control Number: 10/667,980 Page 4

Art Unit: 1713

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Caixia Lu whose telephone number is (571) 272-1106. The examiner can normally be reached from 9:00 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful and the matter is urgent, the examiner's supervisor, David Wu, can be reached at (571) 272-1114. The fax numbers for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (571) 272-1700.

Caixia Lu, Ph. D. Primary Examiner December 6, 2005
